Agrarian Relations and Accumulation Utsa Patnaik,1990 The sixties and seventies saw a wide-ranging debate on the growth of capitalist production in Indian agriculture, which soon became known as the mode of production debate. This book brings together a selection of the articles which constituted the corpus of the debate. The contributions illuminate the basic conceptual issues behind the debate: what is agricultural capitalism, particularly in an ex-colonial country; how are feudalism and semi-feudalism to be conceptualized; in what way do landlord-tenant relations constrain productive development and how do they shape the contours of capitalist accumulation? This book will be of interest to those in the areas of economics, political history, and government.
