**Kieran O'Donoghue, Lambert Engelbrecht**

*Social Policy in Aotearoa New Zealand* Christine Cheyne, Mike O'Brien, Michael Belgrave, 2005 Explains and analyses the development of contemporary social policy in Aotearoa New Zealand. It helps students to understand the conflicting values and perspectives in policy-making and implementation, and to relate the theories of social policy with the practices they will encounter in the field.

**Handbook on Migration and Social Policy** Gary P. Freeman, Nikola Mirilovic, 2016-02-27 In this comprehensive Handbook, an interdisciplinary team of distinguished scholars from the social sciences explores the connections between migration and social policy. They test conflicting claims as to the positive and negative effects of different types of migration against the experience of countries in Europe, North America, Australasia, the Middle East and South Asia, assessing arguments as to migration's impact on the financial, social and political stability and sustainability of social programs. The volume reflects the authors' curiosity about the controversy over the connection between social and cultural diversity and popular support for the welfare state. Providing timely and original chapters which both critique the existing literature as well as build on and advance theoretical understanding, the authors focus on the formal settlement and integration policies

created for migrants as well as corollary state policies affecting migrants and migration. A clutch of chapters investigates the linkage between migration and trade theory, foreign direct investment, globalization, public opinion, public education and welfare programs. Chapters then deal with leading receiving states as well as India and the authors examine the regulation of migration at the subnational, national, regional and global levels. The topic of migration and security is also covered. This compelling and exhaustive review of existing scholarship and state-of-the-art original empirical analysis is essential reading for graduates and academics researching the field.

International Encyclopedia of Social Policy Tony Fitzpatrick, Huck-ju Kwon, Nick Manning, James Midgley, Gillian Pascall, 2013-07-04 Available in paperback for the first time, this milestone work offers an in-depth treatment of all aspects of the discipline and practice of social policy globally. Supported by a distinguished international advisory board, the editors have compiled almost 900,000 words across 734 entries written by 284 leading specialists to provide authoritative coverage of concepts, policy actors, welfare institutions and services along a series of national, regional and transnational dimensions. Also included are biographical entries on major policy makers and shapers. The editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the variety of social policy, as both an academic discipline and a domain of governance, is reflected. Contributors draw in and make the necessary connections with social policy's associated disciplines to provide a rich picture of this vast and highly diverse field. Comprehensive and authoritative, the Encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is on-going research, debate and, sometimes, serious disagreement and divergence in theory and practice. To this end, entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches. The whole is integrated by cross-referencing and each entry includes a bibliography for further reading. There is a full index. The International Encyclopedia of Social Policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come.

Historical Dictionary of New Zealand Janine Hayward, Richard Shaw, 2016-10-20 Diverse elements have created New Zealand's distinctive political and social culture. First is New Zealand's journey as a colony, and the various impacts this had on settler and Maori society. The second theme is the quest for what one prominent historian has labelled 'national obsessions' – equality and security, both individual and collective. The third, and more recent, theme is New Zealand's emergence as a nation with a unique identity. New Zealand's small geographic size and relative isolation from other societies, the dominant influence of British culture, the resurgence of Maori language and culture, the endemic instability of an economy based on a narrow range of pastoral products, and the dominance of the state in the lives of its people, all help to explain much of the present-day New Zealand psyche. This third edition of Historical Dictionary of New Zealand contains a

chronology, an introduction, appendix, and an extensive bibliography. The dictionary section has over 800 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about New Zealand.

**Beyond Biculturalism** Dominic O'Sullivan, 2007 *Beyond Biculturalism: The Politics of an Indigenous Minority* is a critical analysis of contemporary Maori public policy. O'Sullivan argues that biculturalism inevitably makes Maori the junior partner in a colonial relationship that obstructs aspirations to self-determination. The political situation of Maori is compared to that of First Nations and Aboriginal Australians. The book examines contemporary Maori political issues such as the 'one law for all' ideology, the Foreshore and Seabed Act 2004, Maori parliamentary representation, Treaty settlements, and Maori economic development.

The Oxford Handbook of Governance and Public Management for Social Policy Karen J. Baehler, 2023 Public administration plays an integral role at every stage of social policy creation and execution. Program operators' management decisions shape policymakers' perceptions of what can and should be accomplished through social programs, while public administrators wield considerable power to mobilize tangible and intangible resources and fill gaps in policy designs. Furthermore, the cumulative effects of public administrators' daily activities directly influence outcomes for program participants, and may shift policy itself. Location also matters to social policy, as those same administrators are expected to innovate continuously in response to shifting local and national conditions, including changes in budgetary allocations, client needs and capacities, and public attitudes. This Handbook will aim to capture what is being learned across six geographical regions: Africa, Asia, Australasia, Europe, Latin America, and the U.S. and Canada. Specifically, each regional section will contain 6-10 chapters canvassing a particular set of promising practices or emerging challenges at the regional or sub-regional level, in addition to a brief overview written by the section editor. The regional sections will be flanked by integrative chapters. As a whole, the volume contains 65 chapters.

Successful Public Policy Joannah Luetjens, Michael Mintrom, Paul 't Hart, 2019-04-30 In Australia and New Zealand, many public projects, programs and services perform well. But these cases are consistently underexposed and understudied. We cannot properly 'see'—let alone recognise and explain—variations in government performance when media, political and academic discourses are saturated with accounts of their shortcomings and failures, but are next to silent on their achievements. *Successful Public Policy: Lessons from Australia and New Zealand* helps to turn that tide. It aims to reset the agenda for teaching, research and dialogue on public policy performance. This is done through a series of close-up, in-depth and carefully chosen case study accounts of the genesis and evolution of stand-out public policy achievements, across a range of sectors within Australia and New Zealand. Through these accounts, written by experts from both countries, we engage with the conceptual, methodological and theoretical challenges that have plagued extant research seeking to evaluate, explain and design successful public policy. Studies of public policy successes are rare—not just in Australia and New Zealand, but the world over. This book is embedded in a broader project exploring policy successes globally; its companion volume, *Great Policy Successes* (edited by Paul 't Hart and Mallory Compton), is published by Oxford University Press (2019).

**The Routledge International Handbook of Social Work Supervision** Kieran O'Donoghue, Lambert Engelbrecht, 2021-06-28 This handbook provides a comprehensive overview of social work supervision internationally and presents an analytical review of social work supervision theory, practice, and research. Presented in seven parts: International perspectives Supervision settings Roles, responsibilities, and relationships Models and approaches The interactional process Leading and managing supervision Emerging areas The book examines how supervision contributes to the well-being, development, and practice of social workers. It also sets the agenda for the future development of social work supervision internationally. Social work supervision is examined across countries, practice settings, and in terms of participants' roles, relationships, and responsibilities. Contributors show how and why social work supervision is integral to social work and the rich diversity of ways supervision can be practiced. Bringing together an international team of social work supervision scholars, researchers, supervisors, and practitioners, this handbook is essential reading for social workers, supervisors, managers, policy advisors, and professional leaders.

*Human Rights and Disability Advocacy* Maya Sabatello, Marianne Schulze, 2014 *Human Rights and Disability Advocacy* brings together perspectives from civil society representatives who played key roles in the drafting of the Convention on the Rights of Persons with Disabilities, shedding light on the emergent practices of a new diplomacy and the larger enterprise of

human rights advocacy at the international level.

**Tales from School** Rod Wills, Missy Morton, Margaret McLean, Maxine Stephenson, Roger Slee, 2014-11-26 This is a book about the struggle of many New Zealand families to have their children with learning disabilities included in local community schools. It reviews the influences in the post war period that shaped the state response to the right of all children to attend school. Reflections from both education policy makers and parents of that time are included. The book also examines the more recent impact of neoliberal politics on education policy and the consequences experienced by families with school-aged children with disabilities who may well become 'collateral damage in the enterprise of improving schools.' After examining the families' experience the book asks how inclusion can be fostered in schools and classrooms? Practitioners and academics present research findings that indicate alternative ways of thinking and acting that attest to more ethical and humane responses to human difference. Citizens, school personnel, politicians and policy makers should be challenged by the tales from school arising from attempts to achieve a 'world class, inclusive education system.' **The Healthy Country?** Alistair Woodward, 2014-10-20 Did Maori or Europeans live longer in 1769? Why were Pakeha New Zealanders the healthiest, longest lived people on the face of the globe for eighty years - and why did Maori not enjoy the same life expectancy? Why were New Zealanders' health and longevity surpassed by other nations in the late twentieth century? Through lively text and quantitative analysis, presented in accessible graphics, the authors answer these questions by analysing the impact of nutrition and disease, immigration and unemployment, alcohol and obesity, medicine and vaccination. The result is a powerful argument about why we live and why we die in this country (and what we might do about it). The Healthy Country? is important reading for anyone interested in the story of New Zealanders and a decisive contribution to current debates about health, disease and medicine.

**Government and Politics in Aotearoa and New Zealand** Janine Hayward, Lara Greaves, Claire Timperley, 2021-07 The principle guide to the political context, institutions and processes of government in New Zealand. It provides readers with a clear and comprehensive introduction to the history, theory and knowledge required to understand the New Zealand political system.--Publisher's description.

**Changing Times** Jenny Carlyon, 2013-11-15 Pirate radio in the Hauraki Gulf and the first DC8 jets landing at Mangere; feminists liberating pubs and protests over the closing of Post Offices; kohanga reo and carless days: Changing Times is a history of New Zealand since 1945. From a post-war society famous around the world for its dull conformity, this country has become one of the most ethnically, economically and socially diverse countries on earth. But how did we get from Nagasaki to nuclear-free? What made us embrace small-state, free-market ideology with such passion? And were we really leaving behind a society known for its fretful sleepers and 'the worship of averages'? In Changing Times, Jenny Carlyon and Diana

Morrow answer those questions, taking us from the 'Golden Weather' of post-war economic growth, through the globalisation, economic challenges and protest of the 1960s and 1970s, and on to the free market revolution and new immigrants of the 1980s and 1990s. Throughout, stories from the lives of New Zealanders are key: a tank driver yelling in his sleep after World War II, a woman in the Wairarapa discovering The Feminine Mystique, a Tapawera forestry worker losing his job. This is a powerful history of the transformation of New Zealand life.

**Social Work Now**, 2003

*Governing Social Protection in the Long Term* Gaby Ramia, 2020-06-30 This open access book examines the comparative evolution of social protection in Australia and New Zealand from 1890 to the present day, focusing on the relationship between employment relations and social policy. Utilising longstanding and more recent developments in historical institutionalist methodology, Ramia investigates the relationship between these two policy domains in the context of social protection theory. He argues that treating employment relations as dynamic, and as inextricably intertwined with changes in the welfare state over time, allows for more accurate portrayal of similarity and difference in social protection. The book will be of most interest to researchers, advanced undergraduate and postgraduate students in social policy, employment relations, public policy, social and political history, and comparative politics.

Practice Skills in Social Work and Welfare Jane Maidment, Ronnie Egan, Raewyn Tudor, Sharlene Nipperess, 2022-12-30 Practice Skills in Social Work and Welfare has established itself as the essential text to prepare students for the wide-ranging challenges they will face in today's human service sector. This new fourth edition continues the text's core strength of connecting theory with practical examples to build the reader's confidence and expertise in key areas of practice. Part 1 outlines the critical social work and strengths-based practices that underpin the book's approach and provides the context for learning practice skills in a group setting, during community development projects and with individuals and families. Part 2 focuses on developing effective relationships with service users, illustrating through realistic scenarios how social work and human service practitioners can apply their practice skills in a range of settings. In Part 3, the essential elements of client assessment are explored, including risk assessment and cross-cultural perspectives. Issues surrounding intervention are examined in Part 4 from working with families and groups to challenging constructively and safely, while research, evaluation and facilitating closure are covered in the final part. This fourth edition is fully revised and updated and features new material on working with technology, Pasifika communities, LGBTQI+ service users and culturally responsive practice.

**Education Studies in Aotearoa New Zealand** Annelies Kamp, 2019-11-12 This book provides a comprehensive introduction to the core disciplines, and contemporary concerns, that inform the study of education in Aotearoa. As a collection, the work provides a critical account of education policy trajectories and speculates on their limits and possibilities in the changing social and political landscape of Aotearoa New Zealand in the first half of the 21st century. The work has two

aims. First, to serve as an introductory text for students in initial teacher education and other education programmes. Secondly, to be a resource for practitioners, policy makers, administrators and other stakeholders seeking to update their knowledge of the disciplines that comprise education studies, and their application in the current environment. It builds on the premise detailed in the Introduction: that all educational theory--in Aotearoa and beyond--must be understood and applied with due regard to personal, historical, and global context.

**Landscapes of Voluntarism** Christine Milligan, David Conradson, 2011 The appeal of voluntary action as a solution to growing welfare needs in advanced capitalist countries raises important questions about the social impacts and spatial equity of such provision. This book addresses these issues and explores the complex relationship between voluntary action, society and space.
